Text:

ARTICLE XXX – NEW AND EVOLVING WORK

Supplement No. 9 contains the agreed-upon general principles and parameters concerning New and Evolving Work, including Dispute Resolution and Task Force.

Guidelines:

ARTICLE XXX - NEW AND EVOLVING WORK

This subject matter in the Collective Agreement originated in 1994 negotiations. The New and Evolving Work commitments were rejuvenated in 1997 negotiations. Refer to Supplement No. 9 for details.

The NEW language was a resolve to the dynamics that flowed from rapid economic and structural change in the forest industry, and the concern for bargaining unit security by the union (during the early to mid 90's).

There is no activity under the application of this language anywhere in the Association. It has been flagged for removal on a housekeeping basis in concert with the next round of collective bargaining in 2018.
